Professional Summary

Third-Year AIML engineering student with hands-on experience in Machine Learning, backend development, and AI-based systems. Built real-world applications including dataset security systems and management platforms. Strong in Python, ML algorithms, and backend development.

Projects

1. Online Project Review & Management Platform

- Built role-based academic platform for managing projects, submissions, and reviews
- Implemented real-time updates, CSV/Excel import, and secure authentication
- Developed full-stack dashboard-based workflow
- **Tech Stack:** React.js, Vite, Tailwind CSS, Node.js, Express.js, Supabase, PostgreSQL
- **GitHub:** [Repo](#)

2. AI Dataset Poisoning Detection System

- Developed system to detect malicious data using anomaly detection
- Simulated label flip and backdoor attacks on MNIST dataset
- Applied Isolation Forest, Autoencoders, and Trust Score methods
- **Tech Stack:** Python, PyTorch, NumPy, Pandas, Scikit-learn
- **GitHub:** [Repo](#)

3. Apartment Management System

- Built system for complaint tracking, event registration, and admin control
- Designed GUI-based panels with MongoDB integration
- Implemented email notifications and backend logic
- **Tech Stack:** Python, Tkinter, MongoDB
- **GitHub:** [Repo](#)

Work Experience / Internships

1. AI/ML Intern — Vault-Tec Security (Virtual)

Jan 2026

- Completed project-based internship focused on ML workflows
- Worked on model understanding and data handling tasks

2. Data Analytics Intern — Oasis Infobyte (Virtual)

Jan 2026 – Feb 2026

- Performed data cleaning, analysis, and visualization
- Applied Python tools for dataset handling

Skills

Programming: Python, JavaScript, HTML/CSS, Java, C++

ML: NumPy, Pandas, Scikit-learn, PyTorch

Database: MongoDB, PostgreSQL, Supabase

Cloud: AWS

Education

B.E. CSE (AIML) — Gharada Institute of Technology

2023 – 2027

CGPA: 7.30

HSC (12th) — Dnyandeep Vidya Mandir, Khed

2022 – 2023

63.67%

SSC (10th) — New English School, Boraj

2020 – 2021

86.80%

Certifications

- AWS—Cloud Computing
- LinkedIn—What is Generative AI?
- Workshop—Python using AI
